

Notes from IE/ECE Team Meeting on 4/16/07

- I IE Team (Dr. Kaber)
 - A Demonstration of Current Modeling work (VSCI)
 - 1 Demonstrated the ecological VSCI design running in Java
 - 2 Discussed the scenario file information needs from ECE Team
 - 3 Discussed the use of a subjective workload measure for comparison with the Cortisol and GOMSL workload measures
- II ECE Team (Dr. Chow)
 - A Demonstration of Current Modeling work
 - 1 Demonstrated the Matlab/Simulink model running
 - 2 Discussed the components in the station designs
- III Objectives/Assignments for teams
 - A IE Team to share screenshots of Prototype
 - B IE Team to develop a Standard Engineering Interface
 - C Work on VSCI Prototype Integration with file structures from Simulink model
